FILE DIAGNOSES

(If possible, submit answers on website at www.cttr.org.
Click “subscriptions”, then click submit answers.

Case 1:

Struma ovarii
T-87000, M-90900

Case 2:

Mixed germ cell tumor with immature teratoma, ovary
T-87000, M-89400

Case 3:

Mixed Germ Cell Tumor (Yolk Sac and Dysgerminoma)
T-87000, M-86310

Case 4:

Clear cell adenocarcinoma, ovary
T-86910, M-83103

Case 5:

Granulosa cell tumor
T-63850, T-68000, M-95803

Case 6:

Sclerosing stromal tumor, ovary
T-87000, M-85901

Case 7:

Sertoli-Leydig cell tumor, ovary
T-86922, M-86310

Case 8:

Endometrioid carcinoma, low grade, ovary
T-87000, M-83803

Case 9:

Borderline papillary seromucinous tumor, ovary
T-87000, M-33740

Case 10:

Borderline mucinous tumor with focal invasion, ovary
T-87000, M-80001

Alameda (Alameda County Medical Center) - Struma ovarii
Baldwin Park (Kaiser Permanente) - Struma ovarii (3)
Fontana (Kaiser Permanente) - Struma ovarii
Fresno (St. Agnes Medical Center) - Struma ovarii

Case No. 2, Accession No. 29301

March 2005

Alameda (Alameda County Medical Center) - Immature teratoma vs. Sertoli-Leydig tumor with heterologous elements
Baldwin Park (Kaiser Permanente) - Immature teratoma (3)
Fontana (Kaiser Permanente) - Immature teratoma
Fresno (St. Agnes Medical Center) - Malignant teratoma with endodermal sinus tumor
Glendale - Yolk sac tumor and mature teratoma
Hayward/Fremont - Immature teratoma
Irvine (UC Davis Medical Center) - Mixed germ cell tumor, teratoma and yolk sac
Irvine (University of California Irvine) - Mixed germ cell tumor (immature teratoma and yolk sac tumor)
Laguna (Laguna Pathology Medical Group) - Immature teratoma
Long Beach (Lakewood Regional Medical Center) - Immature teratoma (9)
Monterey (Community Hospital of the Monterey Peninsula) - Immature teratoma
Monterey (Garfield Medical Center) - Endodermal sinus tumor (embryonal carcinoma)
Mountain View (El Camino Pathology Group) - Mixed germ cell tumor, immature teratoma and yolk sac tumor
Orange (Orange County Medical Group) - Malignant mixed germ cell tumor
San Diego (Naval Medical Center) - Mixed germ cell tumor (teratoma (immature, yolk sac tumor, dysgerminoma)
San Francisco (San Francisco General Hospital) - Mixed germ cell tumor
Santa Barbara (Cottage Hospital) - Malignant mixed germ cell tumor (immature teratoma, dysgerminoma, yolk sac tumor)
Santa Rosa (Santa Rosa Memorial Hospital) - Mixed germ cell neoplasm (teratoma) with endodermal sinus tumor (yolk sac tumor) (3)
Ventura - Immature teratoma
Arizona, Phoenix - Immature teratoma
Colorado, Evergreen - Immature teratoma/yolk sac tumor
Florida (Baptist Hospital) - Immature teratoma (5)
Florida (Munroe Regional Medical Center) - Yolk sac tumor
Florida (Pathology Associates) - Immature teratoma
Florida (Winter Haven Hospital) - Immature teratoma
Illinois - Immature teratoma
Illinois (Northwestern Memorial Hospital) - Malignant teratoma consistent with germ cell terato-carcinoma
Illinois, Oak Brook - Mature solid teratoma
Indiana (Howard Community Hospital) - Mature teratoma
Maryland (Johns Hopkins Hospital Residents) - Mixed germ cell tumor with teratoma and yolk sac components (2)
Maryland (National Naval Medical Center) - Teratoma with malignant transformation (carcinosarcoma)
Maryland (University of Maryland) - Mixed germ cell tumor and yolk sac/embryonal with mature teratoma
New York (Long Island Jewish Medical Center) - Yolk sac tumor
New York (Stony Brook University Hospital Residents) - Sertoli-Leydig cell tumor
Louisiana (Louisiana State University Medical Center) - Yolk sac tumor with immature elements

Massachusetts (New England Medical Center) - Immature teratoma
Michigan - Immature teratoma
Michigan (Oakwood Hospital) - Immature teratoma with possible endodermal sinus tumor
Michigan (Pathology Services of West Michigan) - Immature teratoma
Minnesota (Fairview Ridges Hospital) - Mixed germ cell tumor/Immature teratoma, yolk sac tumor
Minnesota (Fairview Southdale Hospital) - Immature teratoma
Nebraska (Creighton University School of Medicine Residents) - Mixed germ cell tumor vs. yolk sac tumor
New York (Nassau University Hospital Residents) - Immature teratoma, grade 2
Ohio (Medical College of Ohio) - Mixed germ cell tumor (immature teratoma and yolk sac tumor)
Pennsylvania (Allegheny General Hospital) - Mixed germ cell/yolk sac with teratoma
Pennsylvania (Conemaugh Memorial Medical Center) - Malignant teratoma/endodermal sinus tumor
Pennsylvania (Drexel University College of Medicine) - Yolk sac tumor, microcystic type and teratoma
Pennsylvania (Lehigh Valley Hospital) - Immature teratoma
Pennsylvania (Mt. Nittany Medical Center) - Malignant mixed germ cell tumor with teratoma and choriocarcinoma
New York (Long Island Jewish Medical Center) - Yolk sac tumor
Ohio (McCullough Hyde Memorial Hospital) - Malignant teratoma
Pennsylvania (Magee Women's Hospital) - Immature teratoma
Pennsylvania (Pennsylvania Hospital Pathology Residents) - Immature teratoma
Puerto Rico (University of Puerto Rico) - Mixed germ cell tumor/Yolk sac tumor/Sarcoma/Mature teratoma
Texas, Lubbock - Malignant teratoma
Texas (Scott & White Memorial Hospital) - Mixed germ cell tumor with immature teratoma and yolk sac
West Virginia (Greenbrier Valley Medical Center) - Teratoma, immature
Wisconsin (Bellin Hospital) - Immature teratoma
Australia, Sydney - Mixed yolk sac tumour/immature teratoma
Brazil (UNIFESP/EPM) - Mixed malignant germ cell tumor (immature teratoma with yolk sac tumor and embryonal carcinoma
Canada (Foothills Medical Center) - Immature teratoma
Canada (Woodstock General Hospital) - Mixed germ cell tumor with immature teratomatous and yolk sac tumor elements, ovary
Germany, Hamburg - Mixed germ cell tumor
Hong Kong (Hong Kong Baptist Hospital) - Mixed germ cell tumor (yolk sac tumor and immature teratoma)
Jamaica (University Hospital of West Indies) - Yolk-sac tumour, polyvesticular vitelline pattern, left ovary
Netherlands, Amsterdam - Malignant immature teratoma
Qatar (Hamad Medical Corporation) - Mixed germ cell tumor

Case 2 - Diagnosis:

Mixed Germ Cell Tumor With Immature Teratoma, Ovary
 T-87000, M-89400

Case No. 3, Accession No. 29453

March 2005

Alameda (Alameda County Medical Center) - Dysgerminoma
Baldwin Park (Kaiser Permanente) - Germ cell tumor, mixed (dysgerminoma and yolk sac tumor) (3)
Fontana (Kaiser Permanente) - Dysgerminoma and yolk sac tumor
Fresno (St. Agnes Medical Center) - Malignant germ cell tumor (endodermal sinus tumor and dysgerminoma)
Glendale - Yolk sac tumor and dysgerminoma
Hayward/Fremont - Mixed germ cell tumor/yolk sac and dysgerminoma

Irvine (UC Davis Medical Center) - Dysgerminoma

Irvine (University of California Irvine) - Mixed germ cell tumor with dysgerminoma and yolk sac tumor

Laguna (Laguna Pathology Medical Group) - Malignant mixed germ cell tumor vs. embryonal carcinoma vs. endodermal sinus tumor

Long Beach (Lakewood Regional Medical Center) - Mixed germ cell tumor (dysgerminoma with the yolk sac tumor) (9)

Monterey (Community Hospital of the Monterey Peninsula) - Yolk sac tumor

Monterey (Garfield Medical Center) - Endodermal sinus tumor (embryonal carcinoma)

Mountain View (El Camino Pathology Group) - Dysgerminoma

Orange (Orange County Medical Group) - Malignant mixed germ cell tumor

San Diego (Naval Medical Center) - Mixed germ cell tumor (dysgerminoma, yolk sac)

San Francisco (San Francisco General Hospital) - Mixed germ cell tumor

Santa Barbara (Cottage Hospital) - Mixed germ cell tumor, 80% dysgerminoma/20% yolk sac

Santa Rosa (Santa Rosa Memorial Hospital) - Mixed germ cell tumor with dysgerminoma and endodermal sinus tumor (3)

Ventura - Yolk sac tumor

Arizona, Phoenix - Mixed germ cell tumor, dysgerminoma and yolk sac tumor

Colorado, Evergreen - Dysgerminoma/yolk sac tumor

Florida (Baptist Hospital) - Dysgerminoma (1); Dysgerminoma with yolk sac (mixed GCT) (1); Dysgerminoma and endodermal sinus tumor (mixed GCT) (1); Mixed germ cell tumor (dysgerminoma and yolk sac) (2)

Florida (Munroe Regional Medical Center) - Dysgerminoma

Florida (Pathology Associates) - Pheochromocytoma

Florida (Winter Haven Hospital) - Mixed germ cell tumor

Illinois - Dysgerminoma

Illinois (Northwestern Memorial Hospital) - Mixed germ cell tumor, seminoma and yolk sac

Illinois, Oak Brook - Malignant mixed germ cell tumor

Indiana (Howard Community Hospital) - Clear cell carcinoma

Maryland (Johns Hopkins Hospital Residents) - Mixed germ cell tumor with yolk sac and dysgerminoma components (1); Dysgerminoma (possible yolk sac tumor component need immunos)

Maryland (National Naval Medical Center) - Mixed germ cell tumor with yolk sac embryonal and dysgerminoma

Maryland (University of Maryland) - Mixed germ cell tumor with dysgerminoma and yolk sac

New York (Long Island Jewish Medical Center) - Dysgerminoma

New York (Stony Brook University Hospital Residents) - Dysgerminoma/yolk sac tumor

Louisiana (Louisiana State University Medical Center) - Combined dysgerminoma and yolk sac tumor

Massachusetts (New England Medical Center) - Mixed germ cell tumor (dysgerminoma and embryonal)

Michigan - Dysgerminoma

Michigan (Oakwood Hospital) - Mixed germ cell tumor (dysgerminoma/endodermal sinus tumor)

Michigan (Pathology Services of West Michigan) - Malignant, ?malignant JGCT

Minnesota (Fairview Ridges Hospital) - Mixed germ cell tumor, dysgerminoma/yolk sac tumor

Minnesota (Fairview Southdale Hospital) - Mixed germ cell tumor with (yolk sac and dysgerminoma elements)

Nebraska (Creighton University School of Medicine Residents) - Embryonal carcinoma

New York (Nassau University Hospital Residents) - Mixed germ cell tumor

Ohio (Medical College of Ohio) - Dysgerminoma

Pennsylvania (Allegheny General Hospital) - Mixed germ cell, dysgerminoma with yolk sac

Pennsylvania (Conemaugh Memorial Medical Center) - Yolk sac tumor

Pennsylvania (Drexel University College of Medicine) - Dysgerminoma

Pennsylvania (Lehigh Valley Hospital) - Mixed malignant germ cell tumor

Pennsylvania (Mt. Nittany Medical Center) - Yolk sac tumor (endodermal sinus tumor)

New York (Long Island Jewish Medical Center) - Dysgerminoma

Ohio (McCullough Hyde Memorial Hospital) - Dysgerminoma

Pennsylvania (Magee Women's Hospital) - Yolk sac tumor

Pennsylvania (Pennsylvania Hospital Pathology Residents) - Sertoli Leydig cell tumor

Puerto Rico (University of Puerto Rico) - Mixed germ cell tumor, dysgerminoma and yolk sac

Texas, Lubbock - Dysgerminoma

Texas (Scott & White Memorial Hospital) - Mixed germ cell tumor with yolk sac and embryonal

West Virginia (Greenbrier Valley Medical Center) - Yolk sac tumor
Wisconsin (Bellin Hospital) - Dysgerminoma
Australia, Sydney - Mixed yolk sac tumour/dysgerminoma
Brazil (UNIFESP/EPM) - Mixed malignant germ cell tumor (dysgerminoma with endodermal sinus tumor)
Canada (Foothills Medical Center) - Mixed yolk sac tumor and dysgerminoma
Canada (Woodstock General Hospital) - Mixed germ cell tumor with yolk sac tumor, dysgerminoma, and embryonal carcinomatous elements, ovary
Germany, Hamburg - Mixed germ cell tumor
Hong Kong (Hong Kong Baptist Hospital) - Mixed germ cell tumor (dysgerminoma & yolk sac tumor)
Netherlands, Amsterdam - Dysgerminoma and in my slide probably a yolk sac tumor component
Qatar (Hamad Medical Corporation) - Yolk sac tumor

Case 3 - Diagnosis:

Mixed Germ Cell Tumor (Yolk Sac and Dysgerminoma)
 (Directors Note: A minority of slides also showed embryonal carcinoma.) (drc)
 T-87000, M-86310

Case 3 - References:

Fontana (Kaiser Permanente) - Sertoli-Leydig cell tumor

Fresno (St. Agnes Medical Center) - Sclerosing stromal tumor

Glendale - Sclerosing stromal tumor

Hayward/Fremont - Sertoli-Leydig cell tumor

Irvine (UC Davis Medical Center) - Embryonal carcinoma

Irvine (University of California Irvine) - Sex cord stroma tumor, NOS

Laguna (Laguna Pathology Medical Group) - Thecoma vs. Leydig cell tumor

Long Beach (Lakewood Regional Medical Center) - Sclerosing stromal tumor (9)

Monterey (Community Hospital of the Monterey Peninsula) - Sclerosing stromal tumor

Monterey (Garfield Medical Center) - Thecoma (Theca cell tumor)

Mountain View (El Camino Pathology Group) - Fibrothecoma

Orange (Orange County Medical Group) - Lipid cell tumor

San Diego (Naval Medical Center) - Sclerosing stromal tumor

San Francisco (San Francisco General Hospital) - Sclerosing stromal tumor

Santa Barbara (Cottage Hospital) - Juvenile granulosa cell tumor

Santa Rosa (Santa Rosa Memorial Hospital) - Sclerosing stromal tumor (3)

Ventura - Steroid cell tumor

Arizona, Phoenix - Sclerosing stromal tumor

Colorado, Evergreen - Juvenile granulosa cell tumor

Florida (Baptist Hospital) - Sclerosing stromal tumor (4); Sertolid cell tumor vs. sclerosing stromal tumor (would do inhibin) (1)

Florida (Munroe Regional Medical Center) - Thecoma

Florida (Pathology Associates) - Sclerosing stromal tumor

Florida (Winter Haven Hospital) - Sertoli cell tumor

Illinois - Granulosa-theca cell tumor

Illinois (Northwestern Memorial Hospital) - Sclerosing stromal tumor

Illinois, Oak Brook - Sclerosing stromal tumor

Indiana (Howard Community Hospital) - Sclerosing stromal tumor

Maryland (Johns Hopkins Hospital Residents) - Fibrothecoma (2)

Maryland (National Naval Medical Center) - Sclerosing stromal tumor

Maryland (University of Maryland) - Sex cord stromal tumor, unclassified

New York (Long Island Jewish Medical Center) - Malignant Sertoli-Leydig cell tumor

New York (Stony Brook University Hospital Residents) - Sclerosing stromal tumor

Louisiana (Louisiana State University Medical Center) - Sclerosing stromal tumor

Massachusetts (New England Medical Center) - Sclerosing stromal tumor (fibrothecoma)

Michigan - Thecoma

Michigan (Oakwood Hospital) - Sclerosing stromal tumor

Michigan (Pathology Services of West Michigan) - Sclerosing stromal tumor

Minnesota (Fairview Ridges Hospital) - Sclerosing stromal tumor
Minnesota (Fairview Southdale Hospital) - Sclerosing stromal tumor
Nebraska (Creighton University School of Medicine Residents) - Sclerosing stromal tumor
New York (Nassau University Hospital Residents) - Sclerosing stromal tumor
Ohio (Medical College of Ohio) - Sclerosing stromal tumor
Pennsylvania (Allegheny General Hospital) - Thecoma
Pennsylvania (Conemaugh Memorial Medical Center) - Sclerosing stromal tumor
Pennsylvania (Drexel University College of Medicine) - Juvenile granulosa cell tumor
Pennsylvania (Lehigh Valley Hospital) - Sclerosing stromal tumor
Pennsylvania (Mt. Nittany Medical Center) - Sclerosing stromal tumor
New York (Long Island Jewish Medical Center) - Malignant Sertoli-Leydig cell tumor
Ohio (McCullough Hyde Memorial Hospital) - Sertoli-Leydig cell tumor
Pennsylvania (Magee Women's Hospital) - Mixed sex cord stromal tumor
Pennsylvania (Pennsylvania Hospital Pathology Residents) - Stromal hyperthecosis
Puerto Rico (University of Puerto Rico) - Sclerosing stromal tumor of ovary
Texas, Lubbock - Steroid cell tumor
Texas (Scott & White Memorial Hospital) - Luteinized thecoma
West Virginia (Greenbrier Valley Medical Center) - Sclerosing stromal tumor
Wisconsin (Bellin Hospital) - Sclerosing stromal tumor
Australia, Sydney - Sclerosing stromal tumour
Brazil (UNIFESP/EPM) - Sclerosing stromal tumor
Canada (Foothills Medical Center) - Sclerosing stromal tumor
Canada (Woodstock General Hospital) - Sclerosing stroma tumor, ovary
Germany, Hamburg - Sclerosing stromal tumor
Hong Kong (Hong Kong Baptist Hospital) - Sclerosing stromal tumor
Jamaica (University Hospital of West Indies) - Benign clear cell adenofibroma
Netherlands, Amsterdam - Sex cord stroma cell tumor (steroid cell tumor)
Qatar (Hamad Medical Corporation) - Sclerosing stromal tumor

Case 6 - Diagnosis:

Sclerosing stromal tumor, ovary
 T-87000, M-85901

March 2005

Alameda (Alameda County Medical Center) - Sertoli-Leydig cell tumor
Baldwin Park (Kaiser Permanente) - Granulosa cell tumor (1); Sertoli-Leydig cell tumor (2)
Fontana (Kaiser Permanente) - Granulosa cell tumor
Fresno (St. Agnes Medical Center) - Granulosa cell tumor
Glendale - Poorly differentiated Sertoli-Leydig cell tumor
Hayward/Fremont - Sex cord stromal tumor
Irvine (UC Davis Medical Center) - Malignant sex cord stromal tumor
Irvine (University of California Irvine) - Sex cord stromal tumor, Sertoli-Leydig cell tumor
Laguna (Laguna Pathology Medical Group) - Granulosa cell tumor vs. Sertoli tumor (sex cord stromal tumor)
Long Beach (Lakewood Regional Medical Center) - Sertoli cell tumor (9)
Monterey (Community Hospital of the Monterey Peninsula) - Granulosa cell tumor
Monterey (Garfield Medical Center) - Granulosa cell tumor

Mountain View (El Camino Pathology Group) - Sertoli-Leydig cell tumor
Orange (Orange County Medical Group) - Sertoli-Leydig cell tumor, intermediate grade
San Diego (Naval Medical Center) - Adult granulosa cell tumor
San Francisco (San Francisco General Hospital) - Mixed granulosa and thecoma tumor
Santa Barbara (Cottage Hospital) - Sertoli-Leydig cell tumor
Santa Rosa (Santa Rosa Memorial Hospital) - Stromal tumor, unclassified (1); Poorly differentiated sex cord stromal tumor (1); Sex cord stromal tumor, unclassified type (1);
Ventura - Granulosa cell tumor
Arizona, Phoenix - Adult granulosa cell tumor
Colorado, Evergreen - Thecoma
Florida (Baptist Hospital) - Malignant sex cord tumor, NOS (1); Sex cord stromal tumor, NOS (3); Sertoli-Leydig cell tumor, intermediate grade (1)
Florida (Munroe Regional Medical Center) - Granulosa cell tumor
Florida (Pathology Associates) - Sertoli-Leydig cell tumor
Florida (Winter Haven Hospital) - Granulosa cell tumor
Illinois - Sertoli-Leydig tumor
Illinois (Northwestern Memorial Hospital) - Sertoli-Leydig cell tumor
Illinois, Oak Brook - Granular cell tumor
Indiana (Howard Community Hospital) - Granulosa cell tumor
Maryland (Johns Hopkins Hospital Residents) - Adult granulosa cell tumor (1); Intermediate differentiated Sertoli-Leydig cell tumor (1)
Maryland (National Naval Medical Center) - Sertoli-Leydig cell tumor, poorly differentiated
Maryland (University of Maryland) - Sertoli-Leydig cell tumor
New York (Long Island Jewish Medical Center) - Granulosa cell tumor
New York (Stony Brook University Hospital Residents) - Granulosa cell tumor
Louisiana (Louisiana State University Medical Center) - Sertoli-Leydig tumor (sarcomatoid type)
Massachusetts (New England Medical Center) - Sex cord stromal tumor
Michigan - Sertoli-Leydig cell tumor
Michigan (Oakwood Hospital) - Sertoli-Leydig cell tumor, moderate to poorly differentiated
Michigan (Pathology Services of West Michigan) - Thecoma
Minnesota (Fairview Ridges Hospital) - Sertoli-Leydig cell tumor
Minnesota (Fairview Southdale Hospital) - Sex cord tumor (favor granulosa cell type)
Nebraska (Creighton University School of Medicine Residents) - Sertoli cell tumor
New York (Nassau University Hospital Residents) - Sertoli-Leydig cell tumor
Ohio (Medical College of Ohio) - Poorly differentiated Sertoli-Leydig cell tumor
Pennsylvania (Allegheny General Hospital) - Sertoli-Leydig cell tumor
Pennsylvania (Conemaugh Memorial Medical Center) - Granulosa cell tumor
Pennsylvania (Drexel University College of Medicine) - Granulosa cell tumor
Pennsylvania (Lehigh Valley Hospital) - Granulosa cell tumor
Pennsylvania (Mt. Nittany Medical Center) - Granulosa cell tumor
New York (Long Island Jewish Medical Center) - Granulosa cell tumor
Ohio (McCullough Hyde Memorial Hospital) - Sertoli-Leydig cell tumor
Pennsylvania (Magee Women's Hospital) - Poorly differentiated Sertoli cell tumor
Pennsylvania (Pennsylvania Hospital Pathology Residents) - Low grade stromal sarcoma
Puerto Rico (University of Puerto Rico) - Sex cord tumor
Texas, Lubbock - Poorly differentiated Sertoli cell tumor
Texas (Scott & White Memorial Hospital) - Luteinized granulosa cell tumor
West Virginia (Greenbrier Valley Medical Center) - Poorly differentiated Sertoli cell tumor
Wisconsin (Bellin Hospital) - Sertoli-Leydig cell tumor
Australia, Sydney - Poorly differentiated Sertoli-Leydig cell tumour
Brazil (UNIFESP/EPM) - Poorly differentiated Sertoli-Leydig cell tumor
Canada (Foothills Medical Center) - Adult granulosa cell tumor
Canada (Woodstock General Hospital) - Sertoli-Leydig cell tumor of intermediate differentiated, ovary
Germany, Hamburg - Sertoli cell tumor
Hong Kong (Hong Kong Baptist Hospital) - Adult granulosa cell tumor
Jamaica (University Hospital of West Indies) - Granulosa cell tumour
Netherlands, Amsterdam - Luteinized thecoma with minor sex cord elements
Qatar (Hamad Medical Corporation) - Sertoli cell tumor

Case No. 9, Accession No. 29879

March 2005

Alameda (Alameda County Medical Center) - Mucinous cystic tumor, intestinal type, borderline
Baldwin Park (Kaiser Permanente) - Serous borderline tumor (3)
Fontana (Kaiser Permanente) - Borderline serous tumor
Fresno (St. Agnes Medical Center) - Borderline papillary serous carcinoma
Glendale - Mucinous tumor LMP
Hayward/Fremont - LMP serous carcinoma
Irvine (UC Davis Medical Center) - Mucinous borderline tumor
Irvine (University of California Irvine) - Papillary serous cystadenoma of LMP
Laguna (Laguna Pathology Medical Group) - Serous borderline tumor vs. mucinous LMP tumor, intestinal type
Long Beach (Lakewood Regional Medical Center) - Papillary serous tumor of low malignant potential (9)
Monterey (Community Hospital of the Monterey Peninsula) - Borderline tumor, mucinous vs. papillary serous
Monterey (Garfield Medical Center) - Low grade papillary serous cystic adenocarcinoma with low malignant potential
Mountain View (El Camino Pathology Group) - Serous borderline tumor

Orange (Orange County Medical Group) - Mixed mullerian epithelial tumor of LMP
San Diego (Naval Medical Center) - Mucinous tumor of low malignant potential (LMP)
San Francisco (San Francisco General Hospital) - Borderline papillary serous tumor
Santa Barbara (Cottage Hospital) - Mixed Mullerian borderline tumor with focal intra-epithelial carcinoma
Santa Rosa (Santa Rosa Memorial Hospital) - Borderline malignancy, papillary mucinous tumor (3)
Ventura - Papillary serous cystic tumor of borderline malignancy
Arizona, Phoenix - Borderline mucinous tumor
Colorado, Evergreen - Atypical proliferative mucinous tumor, seromucinous type
Florida (Baptist Hospital) - Atypical proliferative mucinous tumor (2); Borderline papillary serous tumor (3)
Florida (Munroe Regional Medical Center) - Borderline papillary tumor
Florida (Pathology Associates) - Borderline mucinous ovarian neoplasm
Florida (Winter Haven Hospital) - Mucinous papillary tumor of borderline malignant potential
Illinois - Borderline serous neoplasm
Illinois (Northwestern Memorial Hospital) - Borderline serous tumor
Illinois, Oak Brook - Borderline endometrioid tumor
Indiana (Howard Community Hospital) - Borderline papillary serous tumor
Maryland (Johns Hopkins Hospital Residents) - Atypical proliferative serous tumor (so-called borderline mucinous tumor) (1);
 Borderline tumor, mixed type (serous, mucinous, endometrioid) (1)
Maryland (National Naval Medical Center) - Serous tumor of unknown malignant potential
Maryland (University of Maryland) - Mixed sero-mucinous borderline tumor
New York (Long Island Jewish Medical Center) - Mucinous borderline tumor (Mullerian type)
New York (Stony Brook University Hospital Residents) - Borderline serous/mucinous mixed tumor
Louisiana (Louisiana State University Medical Center) - Borderline serous-mucinous tumor of ovary
Massachusetts (New England Medical Center) - Serous cystadenocarcinoma, borderline
Michigan - Papillary serous borderline tumor
Michigan (Oakwood Hospital) - Seromucinous borderline tumor (mucinous borderline tumor, endocervical type)
Michigan (Pathology Services of West Michigan) - Serous borderline tumor
Minnesota (Fairview Ridges Hospital) - Papillary serous tumor, borderline malignancy; Diff Dx: Mixed serous-mucinous tumor
Minnesota (Fairview Southdale Hospital) - Atypical proliferating mucinous tumor (borderline)
Nebraska (Creighton University School of Medicine Residents) - Borderline mucinous cystadenocarcinoma
New York (Nassau University Hospital Residents) - Borderline papillary serous tumor
Ohio (Medical College of Ohio) - Atypical proliferative serous tumor (borderline)
Pennsylvania (Allegheny General Hospital) - Papillary serous borderline tumor
Pennsylvania (Conemaugh Memorial Medical Center) - Borderline serous cystadenoma
Pennsylvania (Drexel University College of Medicine) - Atypical proliferative mucinous tumor with intraepithelial carcinoma
Pennsylvania (Lehigh Valley Hospital) - Mucinous neoplasm of low malignant potential
Pennsylvania (Mt. Nittany Medical Center) - Proliferating (borderline) serous tumor
New York (Long Island Jewish Medical Center) - Mucinous borderline tumor (Mullerian type)
Ohio (McCullough Hyde Memorial Hospital) - Borderline tumor
Pennsylvania (Magee Women's Hospital) - Borderline serous tumor
Pennsylvania (Pennsylvania Hospital Pathology Residents) - Serous papillary tumor, borderline
Puerto Rico (University of Puerto Rico) - Papillary serous cystadenoma, borderline
Texas, Lubbock - Serous cystadenoma of low malignant potential
Texas (Scott & White Memorial Hospital) - Borderline mucinous cystic tumor, endocervical type
West Virginia (Greenbrier Valley Medical Center) - Borderline mucinous tumor
Wisconsin (Bellin Hospital) - Serous papillary cystadenoma of borderline malignancy
Australia, Sydney - Mixed mucinous (endocervical type) and serous low-grade proliferative cystadenoma
Brazil (UNIFESP/EPM) - Atypical proliferative mucinous tumor, mullerian/endocervical type (seromucinous)
Canada (Foothills Medical Center) - Endocervical type mucinous borderline tumor
Canada (Woodstock General Hospital) - Seromucinous borderline tumor, ovary
Germany, Hamburg - Seromucinous atypical proliferative tumor (borderline)
Hong Kong (Hong Kong Baptist Hospital) - Mucinous borderline tumor, endocervical-like type
Jamaica (University Hospital of West Indies) - Atypical proliferative serous tumour, ovary
Netherlands, Amsterdam - Serous borderline tumor with some clear cell changes or focally mucinous change
Qatar (Hamad Medical Corporation) - Borderline serous cystadenoma

Case 9 - Diagnosis:

Borderline papillary seromucinous tumor, ovary
 T-87000, M-33740
