

Subscription C: September 2008

- Case 1: Thyroglossal duct cyst
- Case 2: Hashimoto's thyroiditis
- Case 3: Granulomatous thyroiditis (de Quervains)
- Case 4: Reidel's thyroiditis/struma
- Case 5: Diffuse hyperplasia (Graves Dz, untreated)
- Case 6: Diffuse hyperplasia (Graves Dz, treated)
- Case 7: Adenoma - Microfollicular Hurthle cell
- Case 8: Nodular colloid goiter in mediastinum
- Case 9: Medullary thyroid carcinoma
- Case 10: Papillary thyroid carcinoma, multicentric

Subscription C: October 2008

- Case 1: Pseudoangiomatous hyperplasia, Breast
- Case 2: Intramuscular hemangioma, neck
- Case 3: Epithelioid hemangioma, wrist
- Case 4: Littoral cell angioma, spleen
- Case 5: Nasopharyngeal angiofibroma
- Case 6: Glomangioma, forearm
- Case 7: Epithelioid hemangioendothelioma, liver
- Case 8: Angiosarcoma associated with AV graft
- Case 9: Angiosarcoma, breast
- Case 10: Angiosarcoma, Cardiac atrium

Subscription C: November 2008

- Case 1: Trichuris trichiura
- Case 2: Amoebiasis, colon
- Case 3: Enterobius vermicularis
- Case 4: Measles, lymphadenopathy
- Case 5: Histoplasmosis, skin
- Case 6: Spirochaetosis, colon
- Case 7: Sporotrichosis, forearm, legs
- Case 8: Balantidium coli, appendix
- Case 9: Chromoblastomycosis, skin legs
- Case 10: Leishmaniasis, trunk & extremities

Subscription C: January 2009

- Case 1: Congenital cystic adenomatoid malformation
- Case 2: Peritoneal endometriosis with decidualization
- Case 3: Taenia solium, chest wall
- Case 4: Radial scar (Radial sclerosing lesion), breast
- Case 5: Mammary carcinoid tumor
- Case 6: Uterine implantation site
- Case 7: Juvenile granulosa cell tumor, ovary

Case 8: Plasmacytoma with amyloid, thigh
Case 9: Langerhans cell histiocytosis (Histiocytosis X), femur
Case 10: Hodgkins Disease - Mixed cellularity, axilla

Subscription C: February 2009

Case 1: Parathyroid adenoma, chief cell
Case 2: Parathyroid adenocarcinoma
Case 3: Thyroglossal duct cyst
Case 4: Medullary thyroid carcinoma
Case 5: Adrenal cortical adenoma, cortisol-secreting
Case 6: Adrenal adenocarcinoma, low grade
Case 7: Adrenal cortical adenoma, aldosterone-secreting
Case 8: Adrenal adenocarcinoma, estradiol-secreting
Case 9: Pheochromocytoma, adrenal
Case 10: Pheochromocytoma, adrenal

Subscription C: March 2009

Case 1: Spindle cell (sarcomatoid) mlg mesothelioma
Case 2: PD SCC, small cell variant, lung
Case 3: Lymphocyte-rich spindle cell thymoma, WHO AB
Case 4: Adrenal adenoma - Aldosterone-producing
Case 5: Nodular fasciitis, face
Case 6: Juvenile Hyaline fibromatosis, elbow
Case 7: Atypical lipoma/WD lipoma-like liposarcoma, back
Case 8: Fibroosseous pseudotumor
Case 9: Granuloma annulare, localized deep, thigh
Case 10: Solitary fibrous tumor, hip
Bonus Case: Schistosoma eggs, appendix (see Sub C 1(1), gallbladder)

Subscription C: April 2009

Case 1: Oncocytoma, kidney
Case 2: Mixed epithelial and stromal tumor, kidney
Case 3: Chromophobe renal cell carcinoma
Case 4: Collecting duct carcinoma
Case 5: Medullary carcinoma, kidney
Case 6: Metanephric adenoma, kidney
Case 7: Infantile polycystic kidney disease
Case 8: Mlg rhabdoid tumor, kidney
Case 9: Wilms tumor (without anaplasia), kidney
Case 10: Congenital mesoblastic nephroma, kidney

Subscription C: May 2009

Case 1: Atypical endometrial hyperplasia with atypia
Case 2: Dysgerminoma ovary

Case 3: Endometroid Ca of oviduct
Case 4: Clear cell adenoca of ovary
Case 5: Keloid left deltoid area - male
Case 6: Spitz Nevus
Case 7: Eccrine Hidradenoma skin adnexa
Case 8: Mycosis fungoides
Case 9: Esophageal melanoma
Case 10: Urethral melanoma
